

Wild Bay Seafood Company is committed to providing its customers with wild and sustainable seafood products. All of our seafood is thoroughly reviewed for its sustainability, and we will only offer products that are sustainable. It is our mission to make seafood more accessible, while honoring the oceans and communities that they came from. To give back to the incredible Bristol Bay, AK community, we donate 1% of all net profits to the Food Bank of Alaska. It is our goal to ensure that these incredible fisheries will continue to flourish and be around for generations to come.
